UMFI  
RB 142

I represent Marlow Cropper and Earle Foster. Mr. Cropper and Mr. Foster own 50%+ of WWMFI. WWMFI owns the RB1&2 and Solar Wind 2&3 mining claims and hold state leases on the Maynard mining claims. Utah Mineral & Fossil owns the balance of WWMFI. John Holfert is currently president of WWMFI and Marc Jenkins is currently president of UMFI. UMFI and John Holfert hold the mining permits for all the claims.

Mr. Holfert and Mr. Jenkins have approached Mr. Cropper and Mr. Foster to contribute the \$5,800 needed to satisfy the BLM bond requests. Negotiations are continuing between the parties, but agreement has not yet been reached.

Mr. Cropper and Mr. Foster asked that I contact you and request copies of all future correspondence and notices, etc. be provided them through me. My address, phone, fax, and email address are disclosed in my email signature.

Thank you for your cooperation. We will keep you informed of the status of our negotiations with John Holfert and Marc Jenkins.
